

Name \_\_\_\_\_ Period \_\_\_\_\_ Date \_\_\_\_\_

### Perimeter and Circumference

1) Perimeter = \_\_\_\_\_

2) Perimeter = \_\_\_\_\_

3) Perimeter = \_\_\_\_\_

4) Perimeter = \_\_\_\_\_

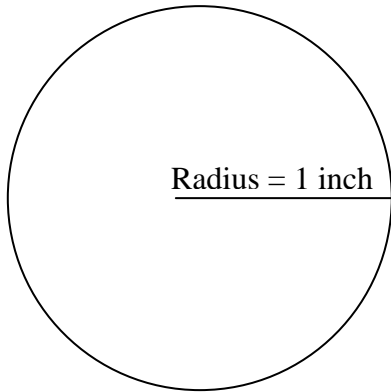

HINT: This is a parallelogram.

5) You are building a fence to enclose a garden in your back yard. How much fencing do you need to buy from the store?

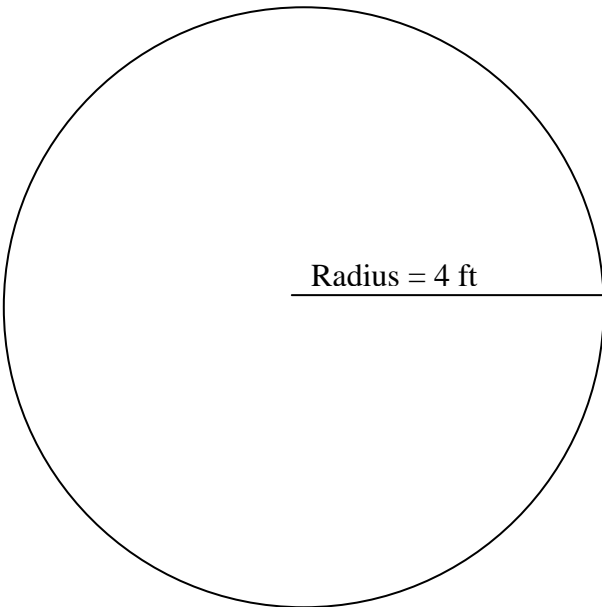

6) Circumference = \_\_\_\_\_

7) Circumference = \_\_\_\_\_

8) Circumference = \_\_\_\_\_

9) Circumference = \_\_\_\_\_

10) You want to wrap a basketball for your little brother's birthday. How much ribbon do you need if the radius of the basketball is 4.7 inches? (HINT: You need 12 inches to make a bow.)

Name ANSWER KEY Period \_\_\_\_\_ Date \_\_\_\_\_

### Perimeter and Circumference

1) Perimeter = 48 ft.

2) Perimeter = 52 yds.

3) Perimeter = 60 ft.

4) Perimeter = 14 mi.  
HINT: This is a parallelogram.

5) You are building a fence to enclose a garden in your back yard. How much fencing do you need to buy from the store?

60 ft

6) Circumference = 6.28 in.

7) Circumference = 12.56 cm.

8) Circumference = 25.12 ft.

9) Circumference = 18.84 ft.

10) You want to wrap a basketball for your little brother's birthday. How much ribbon do you need if the radius of the basketball is 4.7 inches? (HINT: You need 12 inches to make a bow.)

29.516 inch circumference, so about 42 inches.
